

Recruitment Statement

Seeking FASD focused clinicians and support workers to participate in a qualitative study on providing counseling to FASD affected individuals. This data will contribute to a primer on counseling individuals with a FASD. If you are a psychologist, certified counsellors, researcher focusing on FASD, addiction counsellors, social works, mental health nurse, youth workers, and community disability service worker who actively treats individuals with a suspected or confirmed FASD you are a suitable candidate for this study. Participation will involve a semi structured interview with the principle investigator, and you will be contacted for follow up review and clarification of your data. The total time commitment will be approximately 2-4 hours. Participation is voluntary and you may withdraw from the study at any point.

If you are interested please contact the Stephen Griffith, Principle Investigator, by email Stephen.griffith@uleth.ca or by phone and SMS @ 587.257.6757.
