- **Finances**

- It is expected that the second payment from AB Human Services (which includes Quarter 2, 3, & 4), will be received by our Banker, (Bissell Centre), early in July. Upon receipt, cheques will be made up and mailed out.

- **Short-term intervention/navigator**

- Bissell Centre (Catherine, Adult): short-term support is busy, trend that clients not seeking long-term support but are looking for drop-in access to support. Bissell providing this Tuesday and Thursday (all day) at the center.
- McDaniel Youth (Stephanie, Youth): not getting the short-term crisis calls, looking at the 'life history screen' to examine how to triage the youth on the waitlist. Youth are attending groups and this has increased the ability to work with more youth.

- **Program updates**

Bissell (FASS): Fully staffed, no waitlist.

Bissell (Hope Terrace): Housing full.

CASA (FasTracs): School age services changing, which means FasTracs will be changing (September). Not sure what the programming and staffing compliment will look like.

CASA (First Nations): Looking for additional funding as support is at capacity. Different access points such as schools, health centers...

CSS (First Steps): Intakes coming in regularly. Down one staff. Groups held two Wednesdays a month, summer programming currently being planned.

CSS (McDaniel Youth): Will have a full team soon. Long waitlist and summer program beginning soon.

EFRY (GES): School programming ending tomorrow. July and August summer programming, registration will open soon.

Glenrose (Adults): Clerk is still off, at least until September. Cannot hire but using casual staff. Working on waitlist.

Glenrose (Children): Booked for June and July, off in August. Psych-eds is what bottle necks the process. Short administration staff.

Kids Kottage/Elves (FASD Respite): Programming done June 16th. Hosting parent appreciation breakfast.

Leduc County (Bridges): NA

MNA: Community health night, June 27th, 5:30 – 7:30 pm. Focus on FASD the basic.

Unlimited Potential (Open Arms): Very busy with intakes. Waitlist approximately at three months. Many stable but looking for that extra support. Agency is working on the 'Sanctuary Model' and embedding it into the agency practices and policies.

Prevention Conversation: Online training is now live. It is through CanFASD at a cost of \$100.00

SOCIETY MEETING

- **Call to order and roll call**

- **Approval of last meeting minutes**

- **New research/resources**

- **New Terrain: Tools to Integrate Trauma and Gender Informed Responses into Substance Use Practice and Policy**

- <https://preventionconversation.org/2018/05/23/new-terrain-tools-to-integrate-trauma-and-gender-informed-responses-into-substance-use-practice-and-policy/>
- Produced by the Centre of Excellence for Women's Health
- There are 4 parts to the resource: information and justification for trauma/gender/sex (TGS) approaches, examples of how TGS approaches are being integrated into health promotion, harm reduction and substance use treatment settings across Canada, tools for program and policy development to support the integration of TGS approaches, and *Gender Integration Continuum* to guide the assessment of program/policy.
- **Analysis: Improving health research among Indigenous Peoples in Canada**
- Reference: CMAJ 2018 May 22; 190:E616-21. Doi: 10.1503/cmaj.171538

- The analysis provides a brief historical context of research involving Indigenous people in Canada, including research atrocities committed by non-Indigenous researchers, such as nutritional experiments and BCG vaccine trials.
 - Although “research that is obviously unethical is no longer conducted” (p. 616), there are still problematic issues. For example, a lack of community engagement such as community-based participatory research methodologies, 51 out of 52 neurodevelopment studies focused only on FASD “despite higher incidence of autism spectrum disorder and similar incidence of cerebral palsy to FASD is North America” (p. 617).
 - Of interest: examples of Indigenous or culturally appropriate methodologies and methods: Two-eyed seeing, the petal flower, symbol-based reflection, storytelling/conversational method, sharing circle, photovoice
